EXPERIENCE ELECTRIC

e-POWER is a 100% electric motor-driven system that gives you the same high-performance driving experience as an all-electric car.
It uses an electric system to power the wheels and a gasoline engine to charge the battery, making it a self-charging EV.

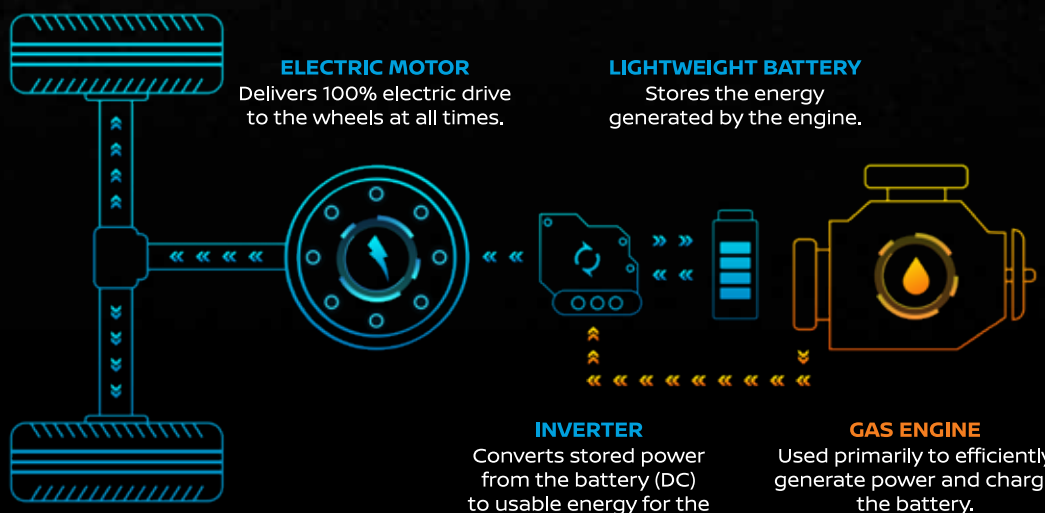
POWERS THE MOTOR



A SYSTEM THAT DELIVERS 100% ELECTRIC DRIVE AT ALL TIMES

e-POWER

Backed by more than 70 years of electric vehicle (EV) heritage, Nissan's proprietary e-POWER technology offers the driving performance and benefits of an EV yet eliminates the need for plug-in charging. Say hello to unrivalled driving performance, excitement, and fuel efficiency.

NISSAN INTELLIGENT MOBILITY

ALL-AROUND SAFETY, ALL THE TIME

Drive with complete confidence at every turn. Whether you're getting out of a tight parking space or cruising on the highway, a system designed for safety leads the way.

- Intelligent Around View Monitor
- Intelligent Forward Collision Warning
- Intelligent Emergency Braking
- e-Pedal Step
- Hill Start Assist
- Driver Attention Alert

NISSAN INTELLIGENT MOBILITY

HILL START ASSIST

Assisting you in your drive, the Hill Start Assist keeps you from rolling backwards on inclined roads by automatically holding the brakes as you switch from the brake pedal to the accelerator.

DRIVER ATTENTION ALERT

While driving at a high speed (60 kph or higher), if the system determines that driver attention is reduced based on the steering behavior, the system generates an audible chime and a message to prompt the driver to take a break.

NISSAN
INTELLIGENT
MOBILITY

JOURNEY WITH A SINGLE STEP

The e-Pedal Step allows the driver to launch, accelerate/decelerate, and can even provide regenerative braking to charge the battery when Eco or Sport Mode is active.

NISSAN INTELLIGENT MOBILITY

INTELLIGENT AROUND VIEW MONITOR WITH MOVING OBJECT DETECTION

This innovative system gives you a virtual composite 360° bird's-eye view to conveniently help you get in and out of tight spots safely.

INTELLIGENT FORWARD COLLISION WARNING

Monitors your speed and the distance from the car ahead, and alerts you to slow down via audio and visual alerts.

INTELLIGENT EMERGENCY BRAKING

Automatically engages the brakes to help avoid a frontal collision or to lessen the severity of an impact.

INTELLIGENT AROUND VIEW MONITOR
